

PARALLEL SESSIONS' SCHEDULE

		PALAVER		KLONDYKE		TAKKA						
MONDAY 17.6	<b>PS1A</b>	<b>HEALING ENVIRONMENTS AND NEURO-WELLNESS</b>		<b>PS1B</b>	<b>EVIDENCE BASED DESIGN AND PARTICIPATORY RESEARCH</b>		<b>PS1C</b>	<b>HOUSING DESIGN AND HOME ATTACHMENT</b>				
	1	143	Tye Farrow	Embreatment, Embodiment, Environmental Enrichment, and Improved Oncology Outcomes, in Israel's Newest Cancer Centre	1	20	Liesbeth van Heel, Clarine van Oel and Milee	Trade-offs in Evidence Based Design: 'the Dutch door debate'	1	32	Anne-Sophie Schoss and Gesine Marquardt	Children with Stroke: An Investigation of Their Home Environment
	2	87	Aaron Davis, Ruby Lipson-Smith and Novell Redesign	A new way to design environments and services: The Neuroscience Optimized Virtual Environments Living Lab (NOVELL)	2	109	Daryia Palityka and Evangelia Chryssikou	From Evidence to Practice: Implementing Art in Healthcare Facility Design	2	51	Elke Ielegems, An-Sofie Smetcoren, Sander Lambrix	Through the eyes of architects: Challenges in designing collective housing concepts for wellbeing and innovation
	3	40	Dilyn Shu Xian Lee, Yong Ling Ng, Ming Kai	Built Environment-Health (BEH) Index	3	66	Maja Kevdzija, Andrea Brambilla and Stefano	Between Research and Practice: a Literature Review protocol for examining practical implications of EBD research studies	3	153	Katy Jacka, Rebecca Cain and Cagri Sanliturk	Human Needs in Relation to Home Attachment: Towards a Theoretical Framework to Identify Meaningful, Constituent Architectural Affordances in Temporary Accommodation.
	4	113	Natalia Batrakova	Ideas behind the new generation of Finnish psychiatric hospitals	4	49	Eli Kindervaag, Åshild Lappegaard Hauge and Svein	Children's experiences of biophilic design at hospitals: Comparing the Outdoor Care Retreat with traditional hospital architecture	4	14	Anne Sigfrid Grønseth, Karine Denizoe, Svein	Housing qualities, spaces and dispositions for low-income families: Effects on experiences of wellbeing, home and belonging
					5	62	Luc Willekens and Clarine Van Oel	The use of VR to improve the dialogue between users and designers in the design of Health Care Centres.	5	70	Oskar Jonsson and Maya Kylén	Identification and prioritization of factors for an adequate housing environment: Involvement of community-dwelling older adults in the early stage of a housing development process
		<b>PS2A</b>	<b>INCLUSIVE DESIGN AND NEURODIVERSITY</b>		<b>PS2B</b>	<b>RESEARCH AND DESIGN METHODS</b>		<b>PS2C</b>	<b>RESTORATIVE ENVIRONMENTS AND NATURE</b>			
	1	74	Amber De Coen, Niels Hendriks and Andrea Wilkinson	Designing Space for Interaction and Recognition of Nonverbal Personhood	1	148	Jerry Hacker	Architectures of (Long Term) Care and Connection: Quantitative Design Methods to Assess Social Performance in Early Phases of Design	1	24	Claire Napawan and Haven Kiers	Nature HEALS - Five Principles of Landscape Design for Health and Well-Being
	2	116	Christina Tsami and Evangelia Chryssikou	Towards Specialized Accessibility Standards for Healthcare Facilities: A Mixed-Methods Study on the Needs of People with Disabilities in Hospitals	2	149	Emmanouela Pagona Vernadou	Mapping the Externalities of Contemporary Architectural Design in Health	2	3	Miia Heikkilä, Ira Verma and Suvi Nenonen	Towards restorative hospital environment - Nature and art in Finnish hospitals
	3	26	Andrea Möhn	Healing environments for clients with intellectual disabilities and challenging behaviour in long-term care facilities: a best practice example for the redesign of six room rooms	3	58	Peter-Willem Vermeersch, Jo Van Hees and	Guarding psycho-social well-being in the complexities of hospital design through a spacekit method	3	53	Anna Bengtsson and Lillian Lavesson	To Promote Contact with Nature and Greenery in Healthcare Environments
4	126	Dimitra Jezdimirović	The effects of the design of socialist centers of culture on contemporary society and the potential for their revitalization to achieve social inclusion	4	27	Christine Räisänen, Dilek Ulutas Duman,	Analysing the dynamics of multimodal interaction in the design of health-care spaces: A social-semiotic approach	4	6	Eugene Shum, Keng Hua Chong and Michael	Pelatok Art Farm - Mindful Placemaking through Participatory Action Research	
				5	115	Martin Voss and Jason Danziger	Consensus Design – Soteria Berlin	5	94	Clara Rius, Ramon Torrents and Agostina	The Garden of the Senses: Principles, Evidence and Practice for Designing Restorative Outdoor Spaces based on the Stress Reduction Theory	
TUESDAY 18.6	<b>PS3A</b>	<b>USER EXPERIENCE AND UNIVERSAL DESIGN</b>		<b>PS3B</b>	<b>SUSTAINABILITY AND WELLBEING</b>		<b>PS3C</b>	<b>AGE-FRIENDLY ENVIRONMENTS AND AGING IN PLACE</b>				
	1	16	René Sørensen Overby and Emil Falster	The Human Body in Architectural Theory and Practice	1	151	Matti Kuittinen, Panu Pihkala and Sanna Lehtinen	Can architecture cause or cure eco-anxiety?	1	118	Helle Wijk	Designed living environment that promotes health and well-being for older persons and health care workers at residential care facilities and in age-friendly cities
	2	18	Elisa Pozo Menéndez, Laura Cambra-Rufino,	User participation for the architectural transformation of Spanish social care centres towards the Person-Centred Care Model	2	2	Kristjana Adalgeirsdottir and Helena	Cultivating Wellbeing - Sustainable Housing design for the displaced population	2	108	Tianzhi Sun, Fei Lian, Maddalena Buffoli and Stefano	Exploring Design for Healthy Aging in Community: A Case Study Approach in the Chinese Context
	3	1	Jonas E. Andersson	In pursuit of the ideal square meter for architectural happiness: on appropriate space for access, comfort, and user interaction	3	81	Gunther De Graeve	Responding to zero-carbon urgency through digital transformation of the health system	3	46	Natalia Vladykina and Laura Arpiainen	Service thinking in architectural design for delivering ageing in place.
	4	154	Veronika Kotradyová	Human-centered Spatial Interventions in Slovak Health Care Facilities	4	9	Cristiana Caira and Karl-Johan Gydel	Health in Timber	4	89	Jenna Mikus	Prompting Transformative Best Self Realisation by (Co)Design: Recognising the Role of Eudaemonia-guided Design Principles in Cultivating Flourishing Ageing-in-Place
					5	105	Ute Ziegler	Cool Down - A Project On Thermal Wellbeing In A Nursing Home	5	152	Ahmed Sabri and Ann-Kathrine Salich	The Need to go Beyond Evidence — Examples of Color & Material Use in Environments for Dementia
		<b>PS4A</b>	<b>PATIENT EXPERIENCE AND HEALTHCARE FACILITIES</b>		<b>PS4B</b>	<b>SENSORY DESIGN AND SOUNDSCAPES</b>		<b>PS4C</b>	<b>DESIGN SUPPORTING CARE AND MEMORY DECLINE</b>			
	1	8	Laura Sacchetti and Göran Lindahl	Understanding healthcare design transformations. Insights from the Swedish experience	1	75	Arezoo Talebzadeh, Paul Devos and Dick	Soundscape augmentation in dementia care design; a proposed guideline	1	42	Ira Verma and Laura Arpiainen	Integrated living for people with memory decline
	2	144	Margreet C. Vos, Anne Voor In'T Holt, Juliette	Creating Synergy: The Partnership Between Infection Prevention & Control and Architectural Design for a Healthier Hospital	2	131	Antti Ikonen	A Friendly Sounding Hospital	2	63	Elena Martinez-Millana	Designing collective housing for older people: Proposals from the Dutch Welfare State by Pot & Pot-Keegstra
	3	76	Ichraf Aroua and Faten Hussein	Ambiance as a key for a better birth experience	3	110	Elena Bellini and Nicoletta Setola	Sensory Design in healthcare welcome spaces for active and healthy aging	3	99	Elisa Pozo Menendez, Álvaro Garcia-Soler,	Learning to design spaces for living and wellbeing in care homes. 17 study cases from Asturias and Gipuzkoa in Spain
4	92	Lisanne Knop and Philip Hector	Design fiction scenarios for healthcare in Germany	4	67	Viivi Salminen and Laura Arpiainen	Recommendations for acoustical environments for seniors and persons with memory decline	4	79	Evan Hayes, Anna Fox and Jeremy Kelly	Consumer co-design process in enabling transformations of care	
				5	65	Maria Quinn	Dementia and the acoustic environment					
WEDNESDAY 19.6	<b>PS5A</b>	<b>HEALTHCARE DESIGN AND MENTAL WELLBEING</b>		<b>PS5B</b>	<b>LEARNING ENVIRONMENTS AND YOUTH WELLBEING</b>		<b>PS5C</b>	<b>DEMENTIA-FRIENDLY ENVIRONMENTS</b>				
	1	54	Sarah Joyce	Beyond white as a neutral color	1	22	Osayaba Osifo and Mikiko Terashima	Addressing barriers in the university campus environment for neuroatypical students	1	21	Keng Hua Chong, Aunn Ning Lim and Sakinah Safiee	Dementia-Friendly Neighbourhood: Translating Ethnographic Research to Evidence-based Design
	2	47	Sofia Souwatzoglou	Medicallteranean Hospitality: Toward a New Architecture Therapy	2	55	Ruth Stevens, Kristine De Martelaer, Lindsay	Stand(ing)still?! Exploring motion affordances in learning environments as a lever for better motor skills in youngsters	2	124	Karin Hoyland	Health promoting housing and care concepts for elderly with dementia.
	3	7	Elke Miedema and Laura Cambra-Rufino	Lessons learnt from testing three spatial observation tools in a hospital ward	3	57	Theodora Mavridou and Jessica	Identifying when design meets the sensory needs of kids in primary schools through a case study	3	41	Charlotte Chao Min Tan, Alyssa Marion Jia-Min	Exploring the determinants of age-friendly neighbourhoods among seniors residing in a low-income urban community in Singapore: A photovoice study.
	4	50	Pia Sirola, Suvi Hirvonen, Sara Malve-Ahroth,	Associations of Shared workspaces with healthcare professionals' Work engagement and Perceived Stress	4	91	Keli Kadriu, Cristiana Caira and Margherita	Healing before. How the built environment can promote mental well-being in young adults?	4	35	Yifat Rom and Ido Morag	Architectural Design and Well-Being: Exploring the Intricate Aspects of the Impact of Layouts on Residents and Caregivers in Specialized Dementia Units
					5	96	Giulietta Boggio Bertinet, Birgit Moser, Clara Rius	The Path. How to Foster Children's and Adolescents' Emotional Well-being through Architecture
